

Faculty Profiles / Departmental / Special Requests

The Manager of Research Accounting is responsible for assisting Dean's, Faculty, Department Coordinators, Finance and Administration staff, etc on running financial reports that can assist with the financial needs of their offices. This includes monthly, Quarterly, Annual or multi- Fiscal year reporting requests. The Manager of Research Accounting can utilize reports in Desktop finance as well as using other Access Database tables, queries and reports to assist with this effort. Requests should be done promptly and saved on the Research Accounting drive to be used for any future similar requests. The FOAPAL Hierarchy, Grant Type Field in FRAGRNT and Banner Attributes can be used to assist with reporting needs for the various faculty financial data requests.
