

Desk Audits and other Audits (not related to Uniform Guidance Audit)

Periodically, the Office of Research and Research Accounting Office will be notified for an audit of a specific purpose. The audit request may come from Federal, State or Private entity. An audit may request information on transactions for a specific period or specific Fiscal year. It may request information on a request for payment and the workpapers that support this payment request. Desk Audits may be done via email between Lehigh and the external entity. If a more elaborate audit is being done, then the auditor may request time reserved in our conference room. Zawarski Law Offices in the Lehigh Valley periodically conduct an audit of some of Lehigh University State Grants.
